Swedemom

Swedemom Board Meeting

Q1 2026 // Software & Technology Update

March 31, 2026 · Prepared by Jamie O'Connell

Today's Agenda

01 What We've Built
Key releases since September 2025

02 Production Impact
Efficiency gains from new tools

03 Financial Projections
MacHub gross profit & casual hub opportunity

04 How the Money Flows
MacHub, external hubs & store

05 Technology Roadmap
What the software team is building next

06 The Swedemom Vision
Four phases of growth

Since September: What We've Built

Key releases, September 2025 to March 2026

PRODUCTION

New Item Edit Page

Rebuilt from the ground up. Streamlined workflow for faster item processing

AI

Final Check Agent

~75% of final check is now fully automated. Was a manual job, now AI handles the bulk of QA

PLATFORM

External API

Homeventory has access. Opens the door to selling secure, controlled access to our tech

ANALYTICS

Sales Dashboard

Accurate shipping & eBay fee tracking for the first time. Solved accounting issues for our accountant

PRODUCTION

Home & Goals Pages

Accountability & productivity tools for production workers. Daily goals, progress tracking

Impact on Production

How the new tools are changing daily operations

AVG INTAKE TIME

4:22

PER ITEM

▼ 26% faster

was 5:56 in Sept 2025

AVG DESCRIPTION TIME

4:07

PER ITEM

▼ 20% faster

was 5:08 in Sept 2025

AVG IMAGING TIME

4:40

PER ITEM

▼ 22% faster

was 6:00 in Sept 2025

FINAL CHECK AUTOMATION

75%

AUTOMATED

Was a fully manual job. Now AI handles 3 out of 4 checks automatically.

ACCURATE FINANCIALS

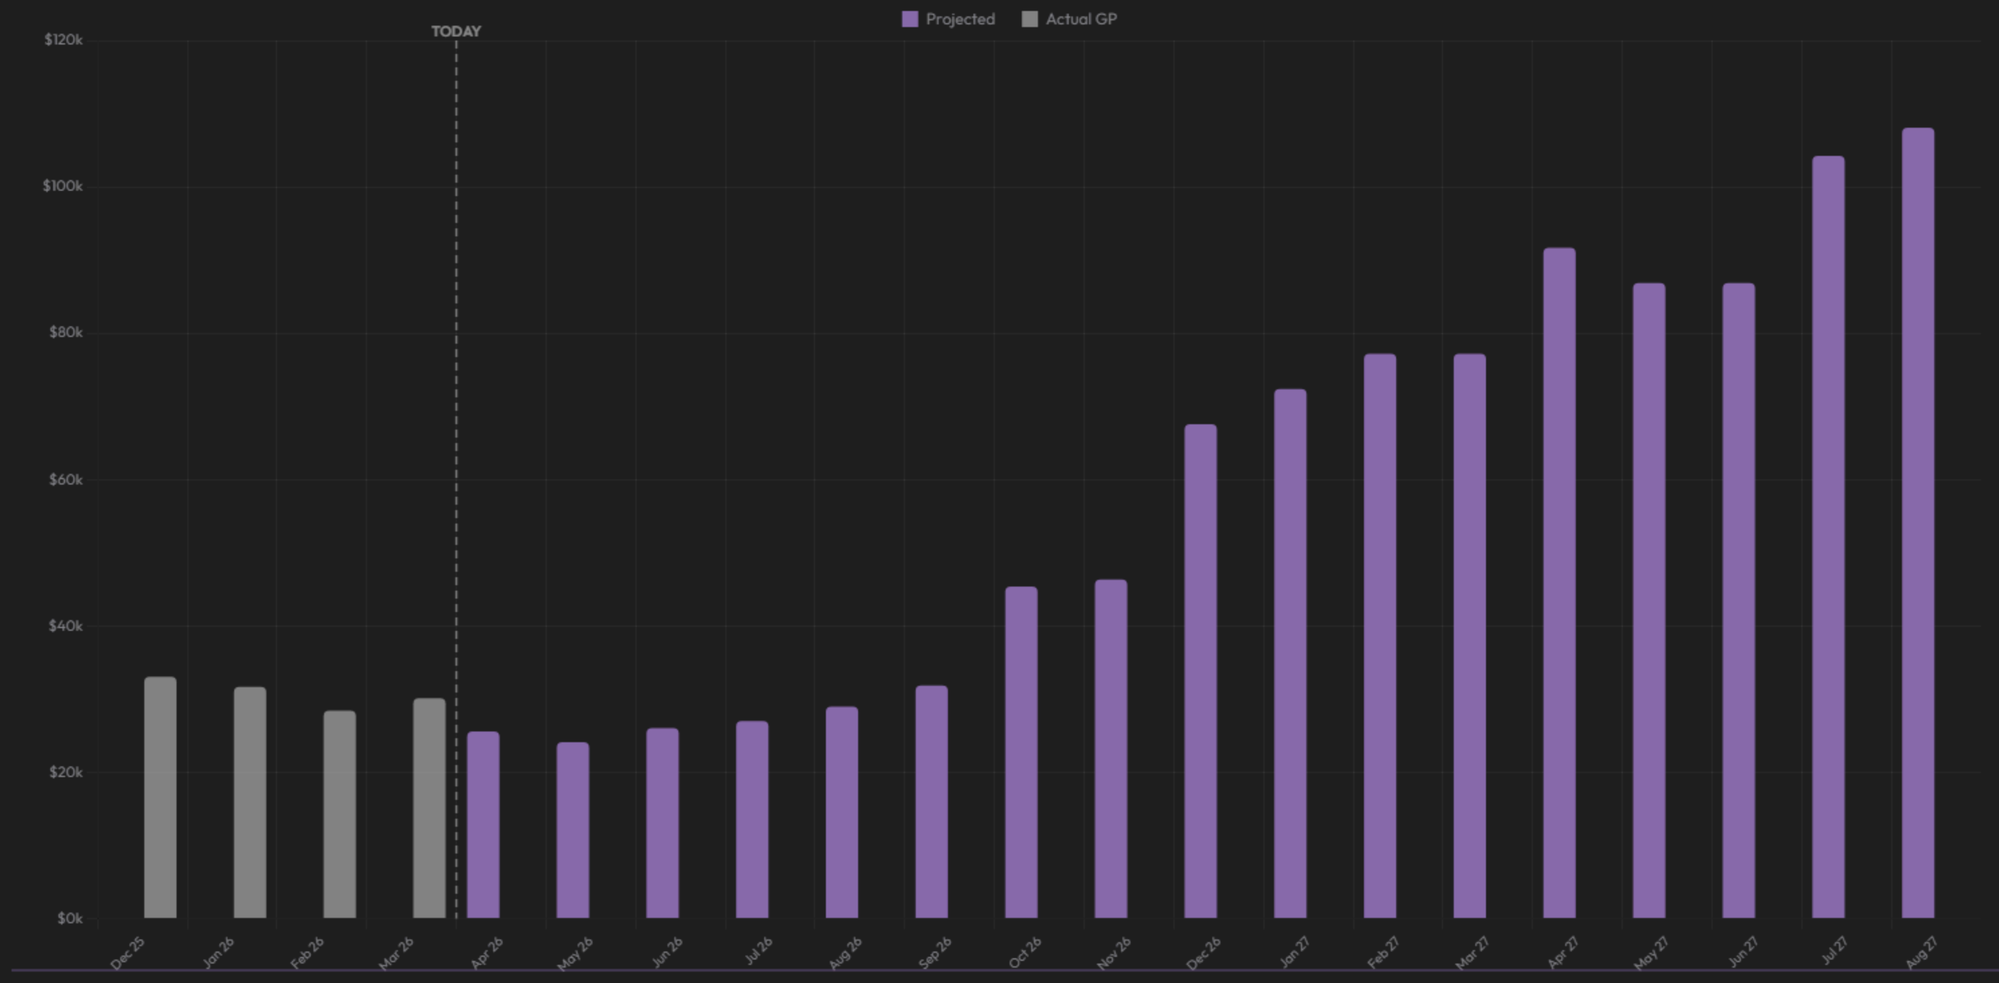
✓

FIRST TIME EVER

Shipping costs & eBay fees tracked accurately. Accounting issues resolved.

Gross Profit: Actual & Projected

Monthly Gross Profit (MacHub / eBay Only)



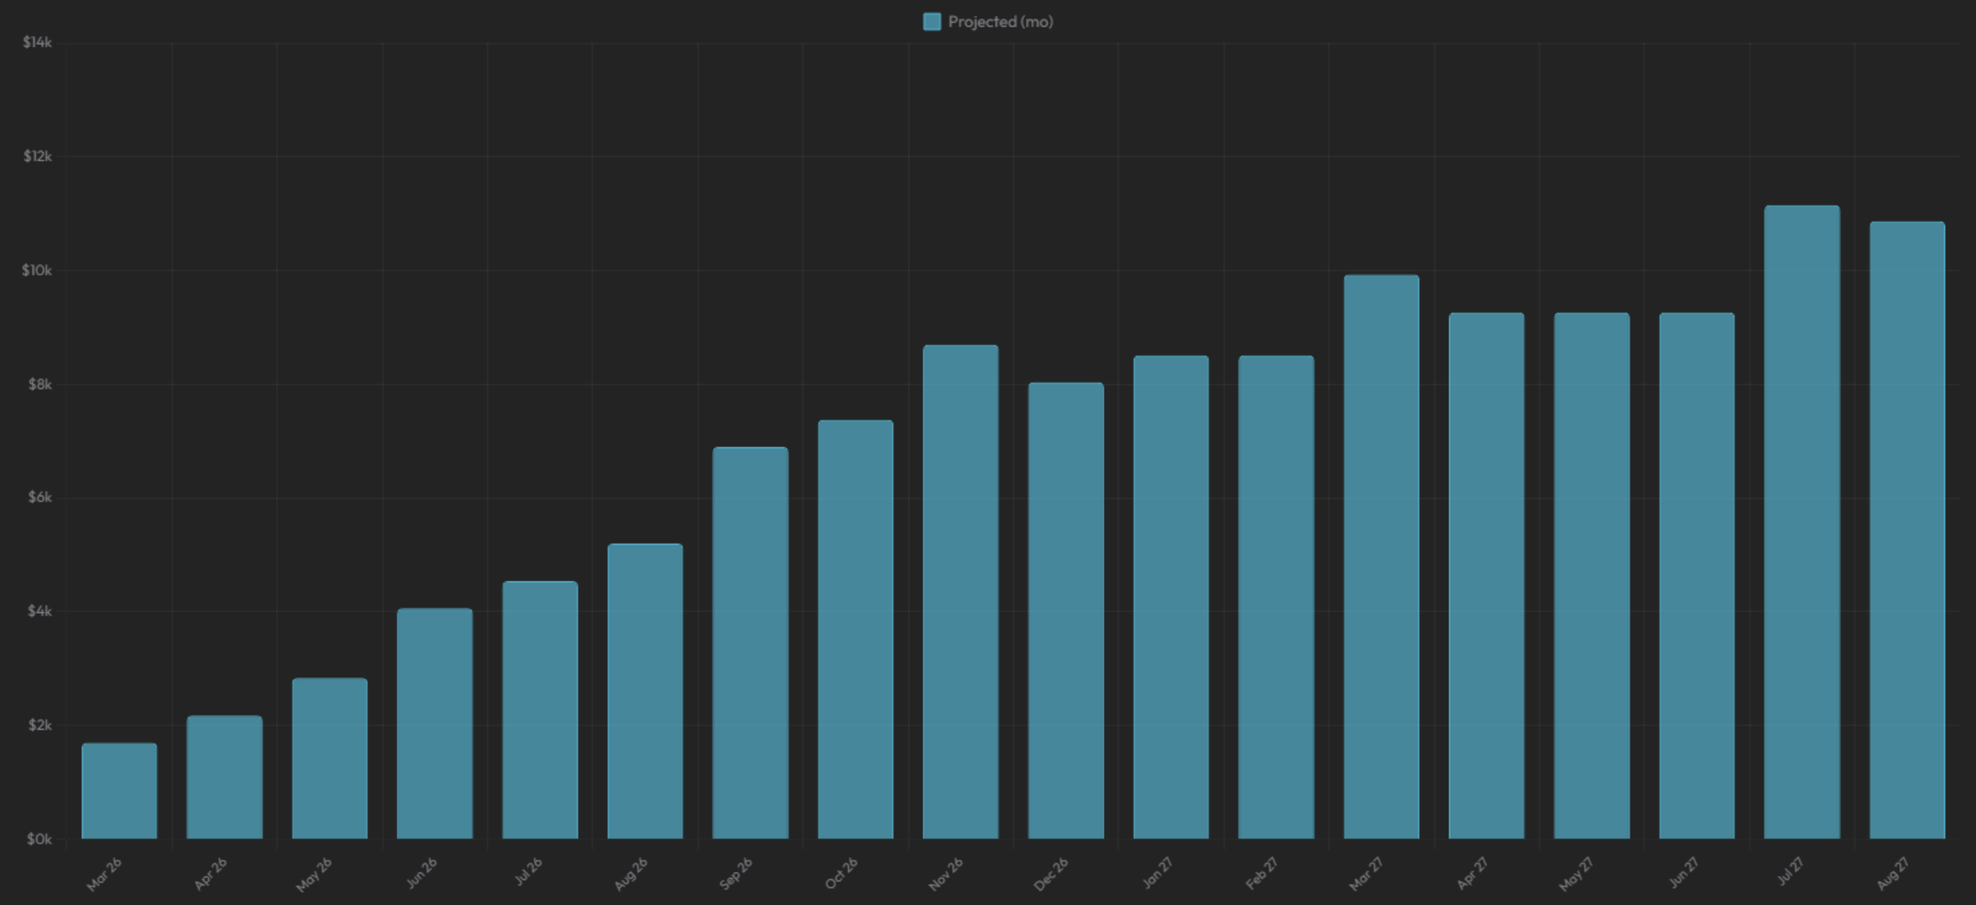
GROSS PROFIT =
Revenue – Shipping Costs – eBay Fees

PROJECTION BASIS

- Same-size production team
- Incorporates seasonality & category profile
- Growth from projected speed improvements at 3, 6, and 9 month thresholds

Casual Hub Opportunity

Projected Monthly Hub Profit (Limited Casual Hub / 2 FTEs)



HUB MODEL

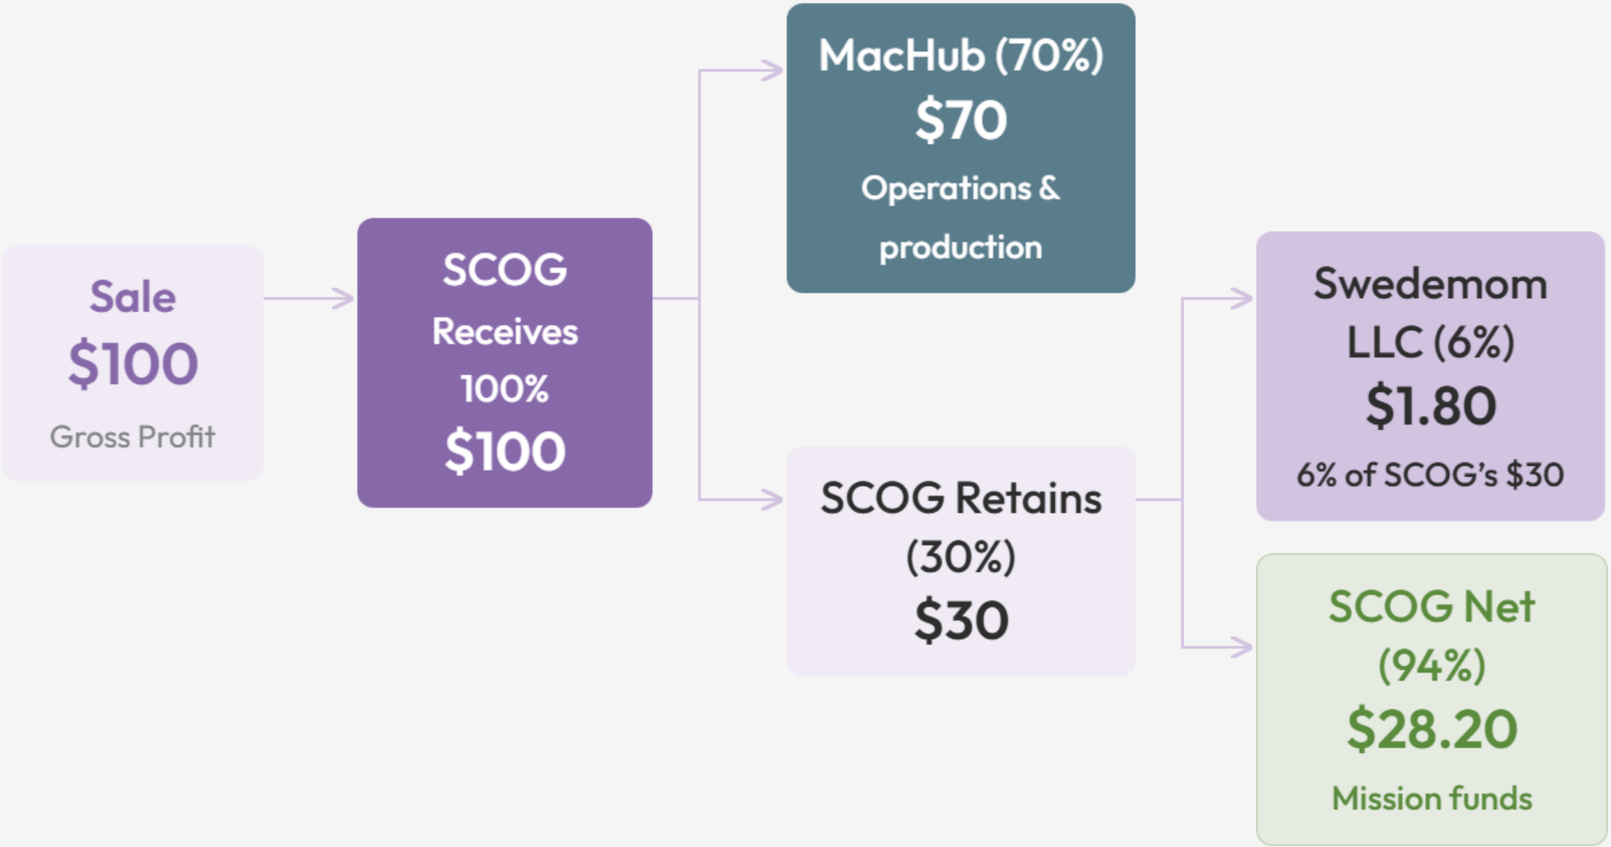
- Limited casual hub
- 2 full-time employees
- SCOG retains 70% of GP

WHAT THIS SHOWS

What a single additional hub can generate as workers ramp up using our tooling and processes.

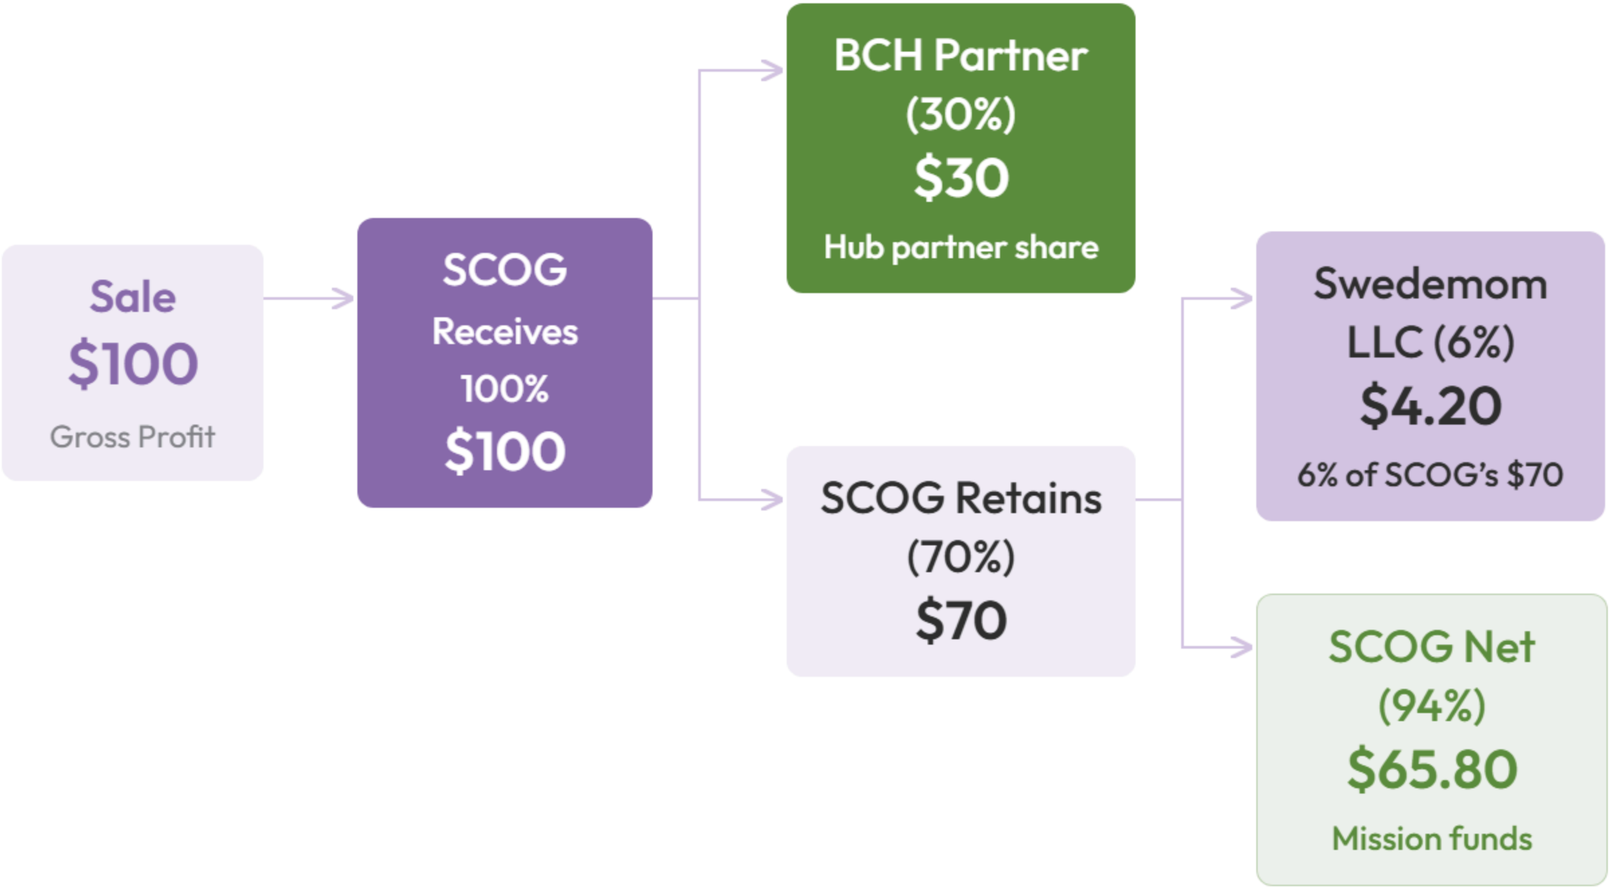
How the Money Flows: MacHub

Internal hub. All production handled by Swedemom



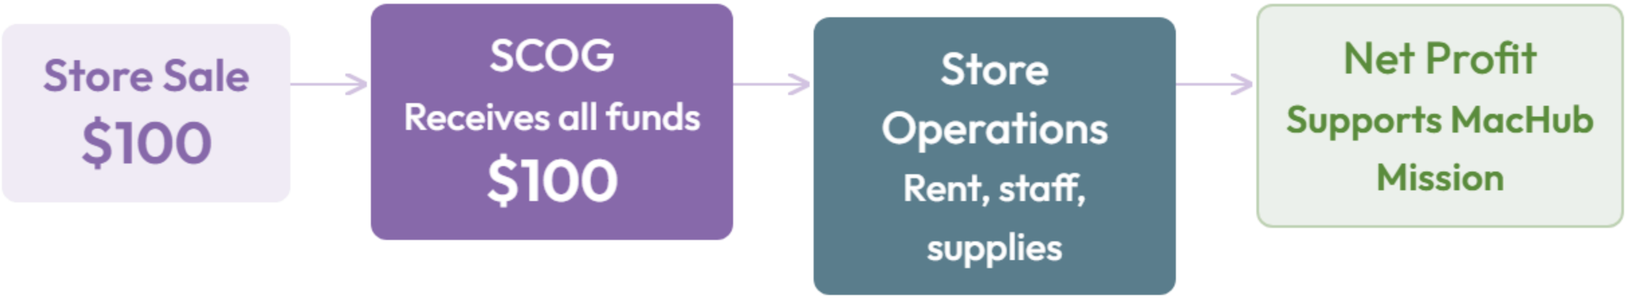
How the Money Flows: External Hub

Example: Blanchet House (BCH): 30% hub partner share



How the Money Flows: Store

Physical retail store. Not yet integrated with hub software



All store revenue goes directly to SCOG. After operating costs, net profit funds the MacHub mission.

Technology Roadmap

What the software team is building next

Q2 2026

- ✦ Pack Station (packing & shipping in-hub)
- ✦ Camera-enabled AI sorting & intake
- ✦ New Manage Listings tool & relisting agent
- ✦ Improved pricing agents
- ✦ Enhanced Final Check agent (75% → 95%)
- ✦ Cost reduction (AWS optimization)
- ✦ New SCOG site (Google Ads Grant)
- ✦ Swedemom.com overhaul
- ✦ Customer support in hub

Q3–Q4 2026

- ✦ Multi-marketplace support
- ✦ Payment processing overhaul
- ✦ AI sorting, intake & description improvements
- ✦ Full casual hub support
- ✦ External API enhancements
- ✦ Customer service AI agents
- ✦ Legacy hub & intranet pages fully retired

The Swedemom Vision

Phase 1	Phase 2	Phase 3	Phase 4
Single Hub	**Local Hub Partners**	**Full Causal Hubs**	**Platform & API**
COMPLETE	BEGUN	Non-local hubs using our platform remotely	Sell tech access to other resellers & nonprofits
MacHub proving the model	Blanchet House first, then more		

REVENUE STREAMS TODAY

MacHub sales • Store

REVENUE STREAMS AHEAD

Hub partner revenue • Multi-marketplace • API licensing
