

PRODUCTION BONUS · ANONYMOUS SURVEY

The questions we'd ask.

These are the 16 questions we propose sending to everyone with the production bonus proposal. Please read them as a staff member would and tell us what to change, add or cut.

Anonymous: no name or email collected

About 5 to 7 minutes

Open October 12 to 16

Only 3 questions required

What staff see first: We're thinking about adding a production bonus on top of your hourly wage, and we want your honest take before anything is decided. This survey is anonymous: it does not collect your name or email, and only overall results are shared. It takes about 5 to 7 minutes. Please read the proposal first (it's attached to the email with this survey).

Notes for managers

- Question 11 helps us decide between clocking in the Hub and in Gusto. Question 15 doubles as a list of tool fixes to prioritize.
- Only questions 2, 3 and 6 are required, so nobody is pushed into an answer they're unsure of.
- With about 20 people, question 1 is the only one about who you are, and it's optional. Results for any group smaller than 5 people are never shown separately.
- Only Jamie sees the raw answers. Everyone gets the overall results.
